

5-year MD PROGRAM IN ENGLISH Division of Studies in the English
Language Medical University of Lodz

Head of The Department of Affective and Psychotic Disorders Prof. Dominik Strzelecki

Psychiatry Training Rules and Regulations

Students are obliged to comply with all the general rules and regulations regarding the Students of the Medical University of Lodz specified in the Student Guide.

Attendance

1. Students attend scheduled classes and lectures according to the timetable.
2. Attendance is checked on each lecture or class and confirmed by lecturers and clinical class teachers in **Student Individual Attendance Form**.
3. Students are requested to be at lectures and classes on time. That aspect of Students activity is an element of the final assessment and is included in the **Clinical Evaluation Form**.
4. Being late for more than 30 minutes is assumed as an absence from that lecture or class.
5. In case of an absence due to medical conditions, the student is required to present a formal medical leave. If medical leave is prolonged over 10% of the course attendance, the Student is entitled to apply for Dean's leave.
6. In case of max one unpredicted absence, the student has to make up for the missed classes in a way that is arranged with the tutor. The preferred option is to deliver a presentation (45 min.) on the omitted subject.

Required procedures and activities:

1. Students' knowledge and acquired skills will be evaluated by clinical class teachers.
 - a. Students are obliged to prepare for classes according to teachers' assignments.
 - b. Students' knowledge will be periodically evaluated during classes.
 - c. Students are obliged to prepare at least one written Psychiatric history and one Present Mental State Exam of the examined patients.
 - d. Students have to pass multiple choice tests covering the following parts of psychiatric theory and practice:
 - I. General psychopathology
 - II. Psychotic disorders, mood disorders
 - III. Substance abuse disorders, anxiety disorders

Tests will take place on the following days of psychiatry training:

Test I: 22.05.2023 Test II: 26.05.2023 Test III: 01.06.2023

e. Students who fail a test must retake it and pass it within **three days**. Clinical class teachers will be responsible for the retake.

2. The above procedures and activities are confirmed by clinical class teachers in the **Required Procedures Forms**.

Exam

1. In order to receive the credit and be qualified for the exam, the Student has to:
 - a. Attend all the classes.
 - b. Pass all the tests and receive confirmation of required procedures.
2. Students meeting all the above requirements are allowed to take the multichoice exam.
3. The recommended textbook is: Kaplan & Sadock's Concise Textbook of Clinical Psychiatry Fourth Edition by Benjamin Sadock, Virginia A. Sadock, Pedro Ruiz
ISBN-13: 978-1496345257 ISBN-10: 1496345258
4. Exams dates
Term I: 12th June 2023
Term II: 28th July 2023
5. Students who pass the exam on a second or third attempt can achieve a maximum good (4,0) grade.
6. Students are requested to download and print all the mentioned above forms and documents from the web page: <http://psychiatria.umed.pl/kzap/en/education-study/compulsory-course/>
 - * bookmark: formal documents
 - * password needed to open presentations and documents: anhedonia33
